Office of the Minister

Dear Student:

The following publication is based on the results of surveys conducted in July of 1982 and 1983 by my Research and Planning Branch, Prince Edward Island Department of Industry. The report summarizes the outcomes of those persons who graduated from U.P.E.I., Holland College and Canada Employment and Immigration sponsored courses in 1981 and 1982. This year we have included vocational high school graduates as well.

The success of previous graduates is one of the important factors to take into account when choosing your career. I am hopeful that the results of the survey will be helpful to you in making your career decisions.

I wish you every success in whatever occupation you should decide to pursue.

Yours sincerely,

Pat Binns

/mjc

INTRODUCTION

This publication is the second of what will be an annual report prepared by the Prince Edward Island Department of Industry. The purpose of the publication is to provide persons with information on how the graduates of training courses fare in finding a job. The data provides a statistical picture of what has transpired with graduates of the past and does not constitute a guarantee for graduates of the future, since labour market conditions and employment situations will continue to change.

The publication is based on both the 1981 Student Follow-up Survey which was conducted by the Prince Edward Island Department of Labour in the summers of 1982 and 1983. All University of Prince Edward Island and Holland College Post-secondary graduates were included in the survey as well as graduates of the Canada Employment and Immigration sponsored courses of more than 20 weeks in length. This year we have included the vocational high school graduates.

Each graduate was asked to indicate their current activity. For those who were employed they were asked to provide a description of their duties (which was used to code their occupation), their average earnings, and if the job was related to their training. All respondents were asked to indicate their current residence which was used to determine how many had left Prince Edward Island. The number of surveys sent and returned as well as the response rate is also included. As well for each course, there is a description of the course content, duration, prerequisites and possible employment establishments. (Much of the information on course descriptions came from Holland College, Canada Employment and Immigration Commission publications or the University of Prince Edward Island.

The percentages are calculated as follows, the employed and unemployed are based on the total number in the labour force which of course excludes those out of the labour force. The employed in a job directly/indirectly related to the training is a percentage of the total employed.

The average earnings are based on the total number employed.

Handbook users should note that survey statistics for some courses are based on small numbers of respondents. Therefore, the data should be used with caution as well as judgement.

Page one presents a list of occupations that Canada Employment and Immigration Commission has designated as being in a shortage situation.

We hope that this information will be beneficial for students making a career decision. If you require additional copies of the publication, please contact:

NATIONALLY DESIGNATED OCCUPATIONS

The following list of nationally designated occupations has been compiled by the Canada Employment and Immigration Commission in order to identify occupations that are in a shortage situation. The list is used to determine occupations where training should be increased.

CCDO		CCDO	
2117	Physical Science Technologists and Technicians	2117-114	Physical Science Technologist (forest products)
		2117-122	Geophysical Technologist
2135	Life Science Technicians and Technologists	2135-272	Forest Technician
2163	Draughtpersons	2163-122	Detail Draughtsperson
		2163-126	Draughtsperson Agricultural
		2163-130	Draughtsperson Civil
		2163-138	Draughtsperson Electrical
		2163-142	Draughtsperson Electronic
		2163-150	Draughtsperson Marine
		2163-154	Draughtsperson Mechanical
		2163-110	Draughtsperson General
		2163-170	Piping Draughtsperson
2165	Architectural and Engineering Technologists and Technicians	2165-130	Electronic Engineering Technologist
		2165-126	Electrical Engineering Technologist
		2165-142	Mechanical Engineering Technologist
		2165-122	Civil Engineering Technologist
		2165-226	Electrical Engineering Technician
		2165-230	Electronic Engineering Technician
		2165-242	Marine Engineering Technician
		2165-238	Industrial Engineering Technician

NATIONALLY DESIGNATED OCCUPATIONS (cont'd)

CCDO		CCDO	
		2165-246	- Mechanical Engineering Technician
		2165-110	- Aerospace Engineering Technologist
		2165-138	- Marine Engineering Technologist
		2165-146	- Metallurgical Engineering Technologist
		2165-158	- Petrochemical Engineering Technologist
		2165-266	- Petroleum Engineering Technician
		2165-299	- Robotics Technician
2183	- Systems Analysts, Computer Programmers and Related Occupations	2183-110	- Systems Analyst Business, Electronic Data Processing
		2183-118	- Programmer, Business
		2183-114	- Systems Analyst Engineering - Scientific, Electronic Data Processing
		2183-126	- Tool Programmer, Numerical Control Skills directly related to Computer Assisted Design/Computer Assisted Manufacturing Technology e.g. (Micro, electronics, Robotics, Numerically Controlled Machinery)
		2183-122	Programmer, Engineering and Scientific
		2183-124	Application Programmer
6120	- Supervisors, Food and Beverage Preparation and Related Service Occupations	6120-127	- Executive Chef
6121	- Chefs and Cooks	6121-112	- Head Chef
6199	- Other Service Occupations N.E.C.	6199-110	Diver/Diver-Welder
7711	- Rotary Well Drilling and Related Occupations	7711-118	- Driller, Offshore
		7711-134	- Derrickman, Offshore
8137	- Moulding, Coremaking and Metal Casting	8137-114	- Sand Moulder

CCDO		CCDO	
8165	Distilling, Subliming and Carbonizing Occupations, Chemicals and Related Materials	8165-110	Petroleum Process Operator
8179	Chemicals, Petroleum, Rubber, Plastic and Related Materials Processing	8179-122	Operator Chemical Process Unit
		8179-126	Chemical Process Operator Batching
8311	Tool and Die Making Occupations	8311-110	Tool and Die Maker
		8311-199	Mould Maker
8313	Machinists and Machine Tool Setting up Occupations	8313-114	Patternmaker
		8313-154	Machinists General
8333	Sheet Metal Workers	8333-199	Sheet Metal Mechanic, Aircraft
8335	Welding and Flame Cutting Occupations	8335-114	Welder-Fitter
		8335-122	Welder, Pressure Vessels
		8335-126	Production Welder
		8335-334	Welding Technician
8351	Wood Pattern-making Occupations	8351-110	Patternmaker, Wood
8515	Aircraft Fabricating and Assembling Occupations N.E.C.	8515-138	Airframe Subassembler
8533	Electrical and Related Equipment, Installing and Repairing Occupations N.E.C.	8533-110	Industrial Electrician
8535	Electronic and Related Equipment, Installing and Repairing Occupations, N.E.C.	8535-114	Repairperson Electronic Equipment
		8535-199	Robotics Repairperson - Processing Equipment
8582	Aircraft Mechanics and Repairpersons	8582-110	Aircraft Mechanic
8584	Industrial Farm and Construction Machinery Mechanics and Repairpersons	8584-122	Millwright
		8584-382	Diesel Mechanic
		8584-112	Heavy Duty Equipment Mechanic (incorporates

CCDO		CCDO	
			8584-378 heavy duty construction equipment mechanic previously designated).
		8584-399	- Marine Mechanic, Offshore Drilling
8588	- Precision Instruments Mechanics and Repairpersons	8588-110	- Aircraft Instrument Mechanic
		8588-114	- Instrument Mechanic, Utilities
		8588-118	- Instrument Repairperson
8592	- Marine Craft Fabricating, Assembling and Repairing Occupations	8592-202	- Marine Engine Mechanic
		8592-122	- Pipefitter
		8592-126	- Shipfitter
		8592-134	- Engine Fitter
8711	- Excavating, Grading and Related Occupations	8711-110	- Heavy Equipment Operator
8733	- Construction Electricians and Repairpersons	8733-110	- Marine Electrician
		8733-122	- Electrician, Construction
8791	- Pipefitting, Plumbing and Related Occupations	8791-110	- Pipefitter (construction)
		8791-112	- Steamfitter
		8791-122	- Gas Fitter (utilities)
8799	- Other Construction Trades Occupations N.E.C.	8799-126	- Industrial Maintenance Mechanic
9151	- Deck Officers	9151-110	- Master, Ship
		9151-114	- Mate, Ship
		9151-118	- Pilot, Ship
9153	- Engineer Officers, Ship	9153-114	- Marine Engineer Officer
9311	- Hoisting Occupations, N.E.C.	9311-114	- Crane Operator, Floating
9533	- Stationary Engine and Auxiliary Equipment Operating and Maintaining Occupations	9533-122	- Stationary Engineer, General

COURSE: BASIC TRAINING FOR SKILL DEVELOPMENT

DURATION: Up to 52 weeks (continuous intake)

PREREQUISITES: Students must have been out of school for two years, and have a minimum education of Grade Six.

COURSE DESCRIPTION:

The course will provide the student with prerequisite skills in mathematics, communication and science, specific to the students occupational goal so that he/she may be able to cope with his chosen trade or occupational course.

POSSIBLE AREAS OF EMPLOYMENT

The course is not generally intended for direct entry into employment, rather it is intended to upgrade individuals to an educational level so that they will be able to function at an acceptable level in pre-employment training.

COURSE: CARPENTRY

DURATION: Thirty-six weeks (180 days)

PREREQUISITES: Grade 10 or equivalent; good background in mathematics; physically fit; demonstrated interest and aptitude in this occupational area.

COURSE DESCRIPTION:

This program is designed to assist students to:

- Develop Personal Competence
- Operate and Maintain Tools and
- Equipment
- Identify and Select Materials
- Construct Forms for Concrete
- Placement
- Construct Wood Structural
- Framing
- Install Interior Finish and
- Millwork
- Exterior Finish and Cladding

COURSE: COMPUTER PROGRAMMER/ANALYST

DURATION: Two years

PREREQUISITES: Grade 12 or the equivalent

COURSE DESCRIPTION:

The Programmer/Analyst program has been designed to enable the student, upon employment, to assume responsibilities in both the programming and systems areas. Employment opportunities are abundant in the commercial and business community in the Maritimes and across Canada. The subject areas that will be covered are computer programming in several languages, systems analysis and design, systems operations and management, design techniques and structured programming, program and systems documentation, and preparation and presentation of systems reports.

COURSE: JOB READINESS TRAINING (JRT)

DURATION: Continuous intake-exit. Duration determined by trainees needs.

PREREQUISITES:

(1) Limited work experience and/or lack of employment skills

(2) Presently unable to benefit from regular B.T.S.D. or skill training.

(3) Desire to enhance one's personal effectiveness in areas related to work.

COURSE DESCRIPTION:

Emphasis is placed on the development of basic skills to a level necessary for entrance to employment or entrance to further training as a preparation for employment. The course will prepare clients for direct entry into the labour market; develop an awareness of their own attitudes, abilities, and interests; develop problem-solving skills and interpersonal relation skills; develop acceptable work behavior and basic work skills; develop job seeking skills and other employment related knowledge as required and assist students in making an occupational choice.

POSSIBLE AREAS OF EMPLOYMENT:

Relative to specific areas of endeavour.

COURSE: RESIDENT CARE WORKER

DURATION: Twenty weeks. Twelve weeks are spent in the classroom doing the background material on the 75 skills required for Level I Resident Care Worker. One month is spent in a Geriatric setting and one month in a Psychiatric setting in order to complete the required skills in clinical settings. In this twenty week period, the student completes Resident Care Worker Level I.

PREREQUISITES: Academic Grade 10 or mature student (19 years of age or over, and out of school for one year). It is preferred that interested candidates have some awareness of the duties of the Resident Care Worker. If they haven't had any exposure, they will be asked to spend two weeks in an institution prior to acceptance by the selection board. The applicants will be interviewed by a selection board prior to entrance.

COURSE DESCRIPTION:

The program is designed to assist students to:

Develop Personal Competence
Communicate Effectively
Meet Physical Needs
Assist with Rehabilitation
Assist with Special Needs
Perform Nursing Procedures
Perform Emergency Procedures
Utilize and Maintain Equipment, Supplies and Facilities

COURSE: ENGINEERING GRAPHICS

DURATION: Thirty-six weeks (180 days)

PREREQUISITES: Grade X

COURSE DESCRIPTION:

This course is designed to prepare candidates for employment as general draftsmen capable of preparing drawings from architect or engineer sketches and specifications. Some of the subject areas include the preparation of detail drawings, sketches, and models, reading and interpretation of drawings and the application and maintenance of instruments.

POSSIBLE AREAS OF EMPLOYMENT:

- Architectural Offices
- Engineering Firms
- Public Works
  Survey Offices
- Construction Firms
- Government Planning Offices
- Construction Materials Retail
  Outlets

COURSE: MICRO COMPUTER

DURATION: One year (6 credits)

PREREQUISITES: Successful completion of Grade 11 or equivalent; and a sound mathematics background.

COURSE DESCRIPTION:

To provide students with an opportunity to explore the applications of microcomputers to business and develop skills in operating and programming of computer systems. The program is designed to assist students to:

- Relate to the History of the Computer
- Identify Computer Systems Components
- Operate Typical Microcomputer Systems and Mini Computers
- Identify the Social Implications of Data Processing
- Read and Construct Flow Charts
- Apply Structured Design-Techniques
- Write BASIC, PASCAL, FORTRAN and COBOL Programs
- Design and Handle Data Files
- Program simple Assembly Language Programs
- Identify and Select Computer Systems Designs and Uses
- Use Work Processing Equipment with Typing Skills Included
- Design a Typical Small Business Information Processing System

COURSE: ENVIRONMENTAL TECHNOLOGY

DURATION: Two years

PREREQUISITES: Grade 12 or equivalent

COURSE DESCRIPTION:

The program will introduce prospective Environmental Technicians to basic ecological principles; and to collecting and analyzing soil, air and water samples. It will assist students to: identify and react to environmental problems, set-up, operate and maintain instruments and equipment, collect and record field data, perform laboratory procedures, identify and react to occupational hazards, utilize maps, air photos and blueprints, compile and analyze data, and communicate effectively.

POSSIBLE AREAS OF EMPLOYMENT:

Most Environmental Technicians are now employed by various provincial and federal government agencies. Their specific duties vary accordingly from agriculture or solid waste disposal, to fisheries and wildlife. Municipalities are hiring technicians in water and wastewater treatment facilities. As new legislation is applied to private industries such as mining, pulp and paper production, and food processors, employment of technicians is increasing in non-governmental areas.

COURSE: MENTAL RETARDATION WORKER

DURATION: 11 Months

PREREQUISITES: Grade 12 or equivalent

COURSE DESCRIPTION:

The Mental Retardation worker program will provide students with training which will qualify them to enter the broad range field of mental retardation as entry level workers. Skills are developed through a combination of seven months in the academic setting and an additional four months in practical on-the-job training. Subject areas include: orientation to mental retardation and related disabilities, communication and counselling skills, planning, developing, implementing and evaluating individual teacher/training programs, normal and abnormal growth and development, values relevant to human services, behavior management technology, application of broad human service principles.

POSSIBLE AREAS OF EMPLOYMENT:

Persons with the above skills are qualified for employment in a wide variety of government and private agencies serving mentally retarded persons. Most acquired skills are transferable to working with a wide range of other disadvantaged groups.

Upon completion of this three year program, the student receives a Diploma in Engineering, and can obtain the degree of Bachelor of Engineering in two more years at some other Canadian University.

The students main course load will consist of engineering related subjects but will also include courses from the following departments: Mathematics, Physics, Chemistry and English.

The Engineering courses cover a variety of subject areas such as surveying, computer programming with engineering applications, dynamics, a study of the principles of Kinematics and Kinetics as well as electric circuits and fluid mechanics.

POSSIBLE AREAS OF EMPLOYMENT:

- Draftsmen
- Surveyor
- Government Departments
